

Tuesday, March 26, 2024  
5:30 - 8 p.m.  
AISD Athletics Complex  
1001 E Division St., Arlington, TX 76011

### The purpose for Employers:

- We want to connect our students to the careers that they are certified in/have hands-on experience in.
- We want to ensure that these highly qualified and experienced students find the best job in our own community to pursue a meaningful career straight out of high school (while attending college classes or without).
- We want to provide every opportunity for our students.
- Students will be prepared for mini-interviews, with a resume or portfolio in hand, allowing businesses time to meet with students interested and certified for employment in specific career fields.

### What does this process look like for employers?

- You will have a table to set up with your business paraphernalia, banners, etc, in an area for employers and career opportunities.
- During the EXPO, junior and senior-level high school students will look for businesses that fit their experience or career aspirations.
- Students will have the opportunity to speak with representatives from their businesses of interest and create an opportunity for follow-up.
- This is a two-part event, with the College Fair section and a separate Career/Hiring section.

### Employers can then:

- Conduct a mini-interview, just have a conversation with students, or hand out further details about their business or jobs available.
- If you cannot offer jobs on the spot (which most can not) – you might pass out information to highly qualified candidates about the next steps in pursuing employment and where to find opportunities in the future.
